Hi Pam, As of today, still waiting on the last round of data referenced in my original message. As for your questions:

1. Last round of data is expected any day now. Including the 30 days for validation, that puts a submittal date of the PDI summary report 120 days out – on or around August 14.
2. We don't anticipate further investigations as part of the PDI, and any additional delineation, if desired by the Group or requested by EPA, would be performed as part of the design program.

Please let me know if you have any questions.

Todd

Thanks Todd. Can you please tell me when I can expect to see the PDI report? What do you think are the chances that you will have to go back out into the field?

Thanks, Pam

Hi Pam,

We have released what we believe will be our final round of samples for analysis following the last of our hold/release decisions for Ley Creek samples collected this fall. We should have raw data in the next few weeks.

Please let me know if you have any questions or would like to discuss upcoming schedule items.

Todd
